

Dear Team Leader,

The 5th Annual "Ganther Race the Lake" bike race on Sunday, August 19th, 2012 is a unique blend designed to challenge the recreational cyclist and simultaneously incorporate a the professional cyclist. It is the **only long distance 90 mile computer chip timed race in the U.S.** that allows riders to travel through cities and towns with controlled intersections. You can ride the event to compete or recreationally as 6 food stops are provided along the course.

Once again we will also have the Team Challenge Division. Divisions for the team award are: All Male, All Female and Mixed.

Your team can register by filling in the roster and sending in each member's individual form. The other option is, the members can register online, however, they must use the same name for their team as they register. EXAMPLE: Fox Tri Club each time, not sometimes and then someone else enters as Fox Triathlon Club. When you enter your team you can take advantage of our team discount \$50 per athlete for 5 or more riders up to Aug. 2.

There is over \$10,000 in total prize money this year. Also awards will be given to the top 3 age group finishers in 5 year increments from 14 and under to 95 plus. Awards are also given for the top 3 following winners: Tandem, Relay, Recumbent, All Male Team Challenge, All Female Team Challenge and Mixed Team Challenge. Teammates can register in one wave group or in whatever wave group each member feels is their predictable time. The first wave group does require qualifications. To win in the Team Challenge Division it does not matter what wave group you choose.

If you have any questions, feel free to either visit: midwestsportsevents.com or call: 1-800-429-8044, my cell phone: 1-920-562-1885 or email: gloria@midwestsportsevents.com

We look forward to seeing you August 19 for the 5th Annual "Ganther Race the Lake."

Sincerely,

Gloria West
