

Oshkosh Kids Tri Swim Map

Black line is the rope. 11-12 yr. olds go first followed by next oldest group. Lifeguards will hold the rope out 200 ft. They will swim on one side, go around the rope and down the other side, then go to their bikes. After that, lifeguards will keep walking to shore, shortening the rope in accordance with that age group. **THE WATER IS NEVER DEEPER THAN THE WAIST LINE FOR ANY GROUP.** Any child needing assistance by the guards will be helped.

Black line indicates pre-measured rope they swim along.
